

## Introducing Our New Staff

Cheryl McCoy joins us as our new Women's Program Coordinator. She writes, "Although I've only been with the Matt Talbot Center for one month now, I know that I have joined with a unique family. These first 30 days have already proven to be richly rewarding experiences for me.

I felt immediately at home in working with the women at Matt Talbot. As a counselor and Family Therapy intern, I have a passion for assisting women in recovery and watching God work to trans-

form broken lives.

Our classes are uniquely designed to meet the needs of women in recovery through the support of a healing environment. I think this healing environment is one of the most powerful components of the program as it promotes sisterhood that develops through shared struggles and triumphs.

It is my hope that in working together with the staff at Matt Talbot, and its members that we will see more women pass through our doors and back into our communities empowered to live productive and purpose-filled lives."

Carol Bohlman is the latest member to join the MTC team. She writes, "I have recently joined the staff of the Matt Talbot Center as the Clinical Supervisor. My background is in education, working in the schools as both a teacher and chemical dependency counselor. I have been certified as a Chemical Dependency Professional in Washington state, and currently volunteer my services as a chaplain and grief counselor at Stevens Hospital, Edmonds.

I am married and blessed with three adult children, four grandchildren and a fifth due in January.

I am grateful for the warm welcome I've received from both staff and members at the Matt Talbot Center and am eager to join with them to bring compassionate, holistic healing to those we serve."
